DO YOU HAVE MEDICAL
 INSURANCE?

YES NO

OTHER INFORMATION YOU
 THINK WE SHOULD KNOW?

If you do not have medical insurance Caralyn's and Hair Donation Ottawa have teamed up to offer a wig program. Please call us for more details.

WHAT TO EXPECT

TO START

You just learned that you will experience hair loss as a result of your treatments. Your first visit or discussion with a consultant from Caralyn's we will :

Look at your current hair (density, colour, length , style, etc)

Determine if we will be providing a transitional haircut and/or shave . There is no charge for the head shave , this is a complimentary service.

Discuss other alternatives such as turbans and hats

Answer all of your questions

WHEN THE HAIR STARTS TO FALL OUT

From our experience the hair will start to shed 10-14 days after chemotherapy has begun. We recommend to leave the hair and tie it up. Washing it may cause big knots that will be very difficult to brush out.

Before & During the hair shed there may be sensations of itchinness and discomfort, please know this is expected .

OTHER USEFUL INFORMATION

How to care for your new hair prosthesis at home.

Learn how to care for your irritated and sensitive scalp during and after your treatments. we have natural scalp care products that are suited to your needs .
